

DIE-CUT ADHESIVES

There are hundreds of different options to choose from, and DALB can provide specialty adhesives designed to meet your application.

PRODUCT USES

- Gaskets and Seals
- Adhesives and Bonding
- Cushing / Shock Vibration
- Sound Dampening
- EMI / RFI Shielding
- Conductors / Insulators
- Critical Edge Masking
- Protective Films
- Filters / Covers

FEATURES

- Tension dispersed along the length of bond instead of concentrated in several places (as with rivets or screws)
- Ability to expand and contract in heat and cold, instead of becoming brittle like rivets and welds
- Clean, sleek appearance
- Perfect for use in automated assembly
